Why is Our Camp Requiring Us to Use CampRx?

Most camps select **CampRx** for two reasons: safety and ease of use. Prepackaged medication all but eliminates the risk of missed or incorrect dosing, and our service saves camps many hours of staff time gathering and organizing campers' medications.

How Much Does CampRx Cost?

We charge a modest fee of between \$10 and \$40 depending on the type of medication and whether your camp requires our service. Our fee does not include the cost of your child's medications.

Is Your Company Experienced?

CampRx has been serving camps for several years, now in a dozen states. We work very closely with our pharmacy provider, one of the largest mail order pharmacies in the U.S.

Can You Supply Any Type of Medication?

Yes, with the exception of diabetes medications. We can supply liquids, creams, inhalers, although they cannot be packaged in the dose strip.

Will Our Insurance Pay for the Medications?

Almost always. Our pharmacy accepts a wide variety of insurance plans, and most companies provide a "vacation override" even if you are not due for a refill. A handful of insurers will not provide reimbursement for pharmacies that are outside of their network.

Where is Your Pharmacy Located?

Our pharmacy provider is DirectRx of Troy, Michigan, one of the largest mail order pharmacies in the Midwest.

Why Do You Need Original Prescriptions?

Our pharmacy provider cannot dispense medications without a prescription. If you prefer, you can have your physician fax the prescriptions directly to us. You can find a PDF form on our web site to speed the process.

What If We Have Questions or Problems?

We are available 24 hours a day at our customer help line. When you call, you'll speak to the owner directly. We also have a Board-certified pediatrician on call around the clock.

CAMP RX

EASIER. FASTER. SAFER.

Welcome to **CampRx**: The easiest, fastest, and *safest* way to dispense medications at camp.

If your child will take daily medication at camp this summer, your camp now requires you to purchase all medications through **CampRx**. Our national company dispenses, specially prepackages, and ships medications directly to camp before the start of each session.

Ordering through **CampRx** is simple. You provide us with basic information about you and your child's medications, including original prescriptions and a copy of your prescription card. You can place your order using the form in this brochure or you can order from our website or by phone. We will send you an acknowledgment of your order along with the date we will ship your child's medications to camp. We will also let you know if we need anything else to complete your order. That's all there is to it!

This brochure provides basic information about **CampRx**, but you can find out much more by visiting www.camprx.com or calling the toll-free number below. We are always happy to hear from parents!

IT'S ALL IN THE PACKAGE

Dose strip packaging makes our safer process possible. Campers' medications are dispensed, sealed, and labeled for daily dosing right at the pharmacy. An easy-open package makes administration at camp simple and foolproof. Our packaging is also waterproof and tearproof, making it ideal for use on trips away from camp.

SAFETY FIRST

CampRx's strong commitment to camper safety doesn't stop with our remarkable dose strip packaging. We maintain a 24-hour customer support line for camps and parents, and our pharmacy provider offers a full staff of knowledgeable professionals who are available to answer medication questions seven days a week. **CampRx** is also the only camp medication service with a Board-certified pediatrician on call around the clock.

It all adds up to a commitment to safety that's *second to none*.
